## Aquarium Pricing Program

### About the Program

OTS is happy to announce three programs that U.S. Aquariums can choose to participate in.

**Behind-the-Scenes Program:** This offers discounted pricing to those who only use OTS equipment for maintenance, or safety purposes, and where OTS equipment is generally not seen by the public.

**On Stage Program:** This offers an extra discount to aquariums with an interactive diver program or any other program that warrants OTS products to be seen by the public.

**Aga Mask Buy Back Program:** For those aquariums who are using the Interspiro AGA Mask in a public setting (i.e. interactive diver program, public show), OTS will trade out the AGA Mask for a Guardian Mask to be used in the same setting for only \$200.00. Ear Mic Assemblies accompanying the AGA mask, that are in good working condition, can also be traded in for an Ear Mic Assembly configured for the Guardian for an additional \$200.00.

### How to Participate

There are no forms needed to be filled out in order to participate. However, if you are interested in the **On Stage Program** you must be able to show proof on request that you indeed have, or plan to have, a program suitable for this. Please contact an OTS Sales Representative to place an order, and find out what you need!

### Discounts per Program

#### Behind the Scenes Program:

-15% off Masks and 10% off Communications

#### On Stage Program:

-25 % off Masks and 15% off communications.

#### Aga Mask Buy Back Program\*:

- Turn in your AGA mask and buy a Guardian for only \$200.00. If your mask has an Ear Mic Assembly, turn it in for one that fits the Guardian for an extra \$200.00

**\*Only applicable on those AGA Masks used in public view**
